

Nurturing the Inner Life

For us, education is an aid to life that embraces a child's inner life. In times of quiet, we guide them to know themselves and their Creator, realizing their lives are supported by the love of their parents and the people around them.

Authentic Montessori Curriculum and Cosmic Education

Guides trained with Sunshine Teachers Training, a complete prepared environment, children of mixed ages, and a daily work cycle of three hours.

Character

Respect for Self, Others, and Environment

This core principle shapes every interaction, nurturing learners who are academically confident, emotionally aware, and socially responsible.

We don't teach children what to think. We guide them in how to think, how to work, and how to care.

Our School Program

Going Out (student-led excursions)
Exhibition
Cultural Day
Practical Life Gardening
Peer Mentoring
Charity & Giving Projects

Enrichment activities beyond the core Montessori work cycle.

Real-world learning experiences beyond the classroom.
